Whereas the SFUO is a political organization

Whereas we have taken stances on these issues in past campaigns, statements, and actions, as well as alongside other universities

Whereas the global climate is affecting many communities and identities

Where as we have seen our university make decisions not in the best interest of marginalized communities

Where as the federation will always do its best to represent and protect marginalized populations

Whereas this campus has seen hate crimes, discrimination, racism, inaccessibility, colonialism, capitalism, etc. negatively affect the ability of all students being able to take part in campus life and community.

Be it resolved that
